2700 HIGHLIGHTS. 1 Crisp lines and shadows provide definition to enhance the homeowner's ability to add curb appeal and increase the value of their home. 2 A premium urethane core is injected between a highly impact resistant fiberglass face and interior steel skin. This design offers a high R-Value of 14.44 and additionally protects with a tongue and groove, thermally-broken section joint. 3 A white, 25-gauge interior steel skin finishes off the design creating a clean, durable finish to the interior of the garage.

Defined. Intriguing.

Your home reflects who you are and allows you to make the statement you choose. The largest door on your home will only add to that personalized statement. C.H.I. offers an additional way in which to do this with the high-definition distinguishing look offered with this impact resistant fiberglass door. Not only is the 2700 series intriguing, but it is also energy-efficient with a thermally-broken polyurethane core which provides a superior insulation rating and optimum protection from the outside elements.

Created for those who choose to create a statement.

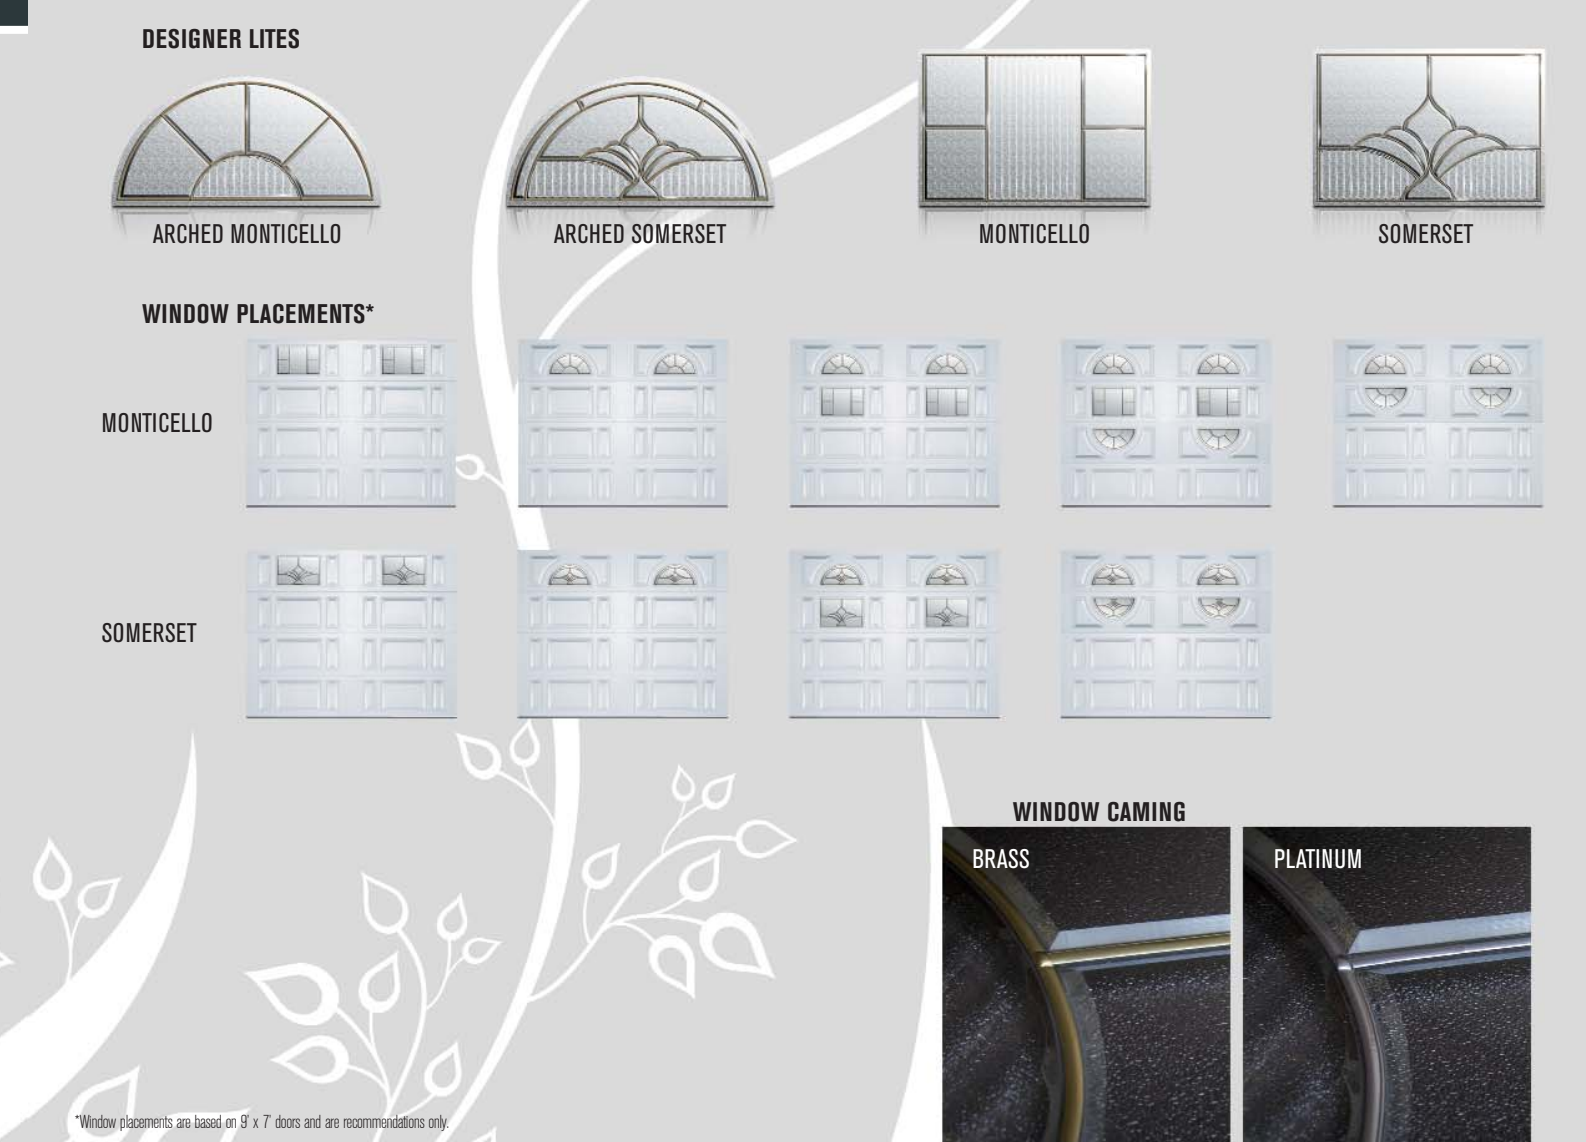

2700 COLOR SELECTIONS

2700 FEATURES

FEATURES
 The sections are 2" thick with a formed fiberglass face and a 25-gauge (.0186 min.) flush steel, interior skin that is factory-finished in white
 Exterior skins are factory-finished in six designer colors: white, almond, evergreen, mahogany, walnut and oak with optional wood-tone available in oak, mahogany and walnut
 Unfinished (gray) exterior skins are available for field gel staining
 Optional 1/2" insulated designer lites are available with a beveled acrylic face and 1/8" DSB obscure glass back with brass or platinum caming
 Thermally-broken for optimum weather protection
 Concealed steel plates run continuously from top to bottom of each section for fastening hardware
 White painted end stiles
 Bottom weather seal utilizes an aluminum retainer and extruded virgin vinyl
 Available widths: 8', 9', 10', 16', 17' and 18'
 Available heights: 7' to 14' in 3" height increments (except 8'3", 8'6" and 10'3")
 All models R-Value - 14.44

Note: Unfinished doors are for field gel staining only. Follow directions provided by gel stain manufacturer. If field painting is desired, the door must be factory finished (painted) prior to any painting in the field. Use only oil based or acrylic latex house paint when repainting doors.

¹Features are subject to change without notice. ²Refer to colors samples at your local C.H.I. distributor for exact color match. ³R-value is calculated in accordance with ASHRAE standard formulas.

*Window placements are based on 9' x 7' doors and are recommendations only.
